CARE AND CLEANING

- Never use a strong / abrasive cleaner. Always test your cleaning solution on an unnoticeable area before applying it to the entire surface.
- Wipe surfaces clean, immediately after applying cleaner.
- Do not allow the cleaner to sit or soak. Never let cleaners sit on the surface of the lavatory.
- Use a soft, dampened sponge or cloth. Never use an abrasive material such as a brush or scouring pad to clean surfaces, they will scratch the lavatory surface.
- Always rinse and wipe clean the fixtures to prevent soap buildup.
